

# Technology Contract

**As a digital citizen and responsible computer user I will:**

1. Stay on task and complete the task I am responsible for.
2. Research responsibly
3. Use Google Chrome/Internet responsibly
4. Only use the computers at appropriate times (close screen when someone is speaking.)
5. Not play around with the computer (playing games, playing with the camera or doing other things that aren't related to assigned task.)
6. Always ask permission before getting on a site that hasn't been approved by Mrs. Edman.
7. Be responsible when using email.
8. handle and use the computers appropriately (no food or drink, charging it when I'm done, walking with it safely and using it on appropriate surfaces.)

**I understand that if I break my technology contract at any time, I will loose my computer privileges.**
